

CARE PLAN

Price

R500 / month

Term

Month-to-month

Care Plan — Terms

Most of my clients don't need ongoing help — that's the point of how I hand things over. But if you'd rather never think about your website again, the Care Plan has you covered. Here's exactly what it is and isn't.

What you get every month

- › Your hosting and domain renewals managed — nothing lapses or expires.
- › Up to 2 small content changes a month (new prices, updated hours, a swapped photo).
- › Uptime monitoring — if your site goes down, I usually know before you do.
- › A short monthly summary of your traffic, in plain English.
- › Priority WhatsApp support — you skip the queue.

What counts as a “small change”

A small change is a quick edit to existing content — roughly 30 minutes or less, with no new pages, sections, or features. Bigger work (new pages, redesigns, new functionality) is quoted separately, and Care Plan clients get a friendly rate.

The fine print

- › R500 per month, billed [**monthly / annually**] by EFT.
- › Month-to-month. Cancel anytime with [**30**] days' notice — no penalty.
- › Every account (domain, hosting, email) stays registered in your name. This is a convenience, never a lock-in.
- › Unused monthly changes don't roll over.
- › If you cancel, your site keeps running exactly as it is — you just take the wheel again.

Not a registered VAT vendor — no VAT is charged on these fees.
